The Manitoba Road.

ST. PAUL 26.—Mr. Hill was elected president of the Manitoba road today. The opposition was not strong enough to overthrow him.

N. P. R. Nabobs at Winnipeg.

WINNIPEG 2.—Messrs. Kendricks and McFaught, of the Northern Pacific, are in town on business with the local government.

Coming West.

WINNIPEG 27.—Mr. Shaughnessy, Assistant General Manager of the C. P. R., Col. Whitehead and Charles Cassils, of Montreal went west this morning.

Quarantine Inspector at Macleod.

OTTAWA 2.—Robert Evans, who was spoken of as a candidate in Cardwell, has been appointed quarantine inspector at Fort Macleod.

Burned to Death.

JACKFISH BAY, Ont. 29.—Mrs. Gerighty's hotel was burnt here this evening and two men, Sam Brown and one Cunningham were burned to death in the building.

The General.

VICTORIA 29.—Sir Fred Middleton has arrived here. He was met at the boat by a guard of honor consisting of "C" Battery. He will inspect the troops today.

Liberal Candidate.

HALIFAX 1.—The liberals of Shelbourne have nominated Hon. Thos. Johnson to oppose General Laurie in the forthcoming election for the House of Commons.

Vancouver En Fete.

VANCOUVER 28.—The city was en fete yesterday over the formal opening of the new park which comprises 11,000 acres. It is called Stanley Park after the Governor-General.

Defaulting Civic Officials.

VICTORIA 27.—It has been discovered by the auditors that the city treasurer and the city clerk of Victoria are short in their accounts to the extent of five thousand dollars.

Ministers Movements.

OTTAWA 27.—Hon. Mr. Dewdney was sworn in yesterday by the Governor-General. Sir John Macdonald and Sir John Thompson have left for Cardwell to attend the nomination.

Mercier Will Abide by the Veto.

MONTREAL 2.—According to L. O. David, M. P. P., who returned from Quebec today, the veto proclamation will be published by Mr. Mercier in the Quebec official Gazette on Wednesday, and the magistrates' court is to be thereafter closed.

Voted Twice.

OTTAWA 26.—It came out in evidence yesterday in the Ottawa contested election case that Father Paradis of the Oblate order, had voted twice for Rochon the liberal candidate.

Dominion Immigration Agent.

WINNIPEG 26.—J. G. Moore, late provincial police magistrate is mentioned as a possible successor to Capt Graham as Dominion Immigration Agent at this point.

Lepine Elected.

MONTREAL 26.—Lepine, the labor and conservative candidate, was elected for the Commons in Montreal East today over Poirier, liberal, by six hundred and eighty seven majority.

Real Estate Sale in Winnipeg.

WINNIPEG 2.—The sale of city lands for taxes is now going on and the bidding is very keen. Good prices have been realized on all properties sold and the receipts are largely in excess of the amount of taxes.

The Rioting Over.

SHERBROOKE 2.—The rioting Italians, who had gathered at Sawyerville, returned to work today on the understanding that they would receive their September pay. All is now quiet along the line.

Alaska Miners Starved Out.

VICTORIA 2.—The steamer Idaho arrived this morning with numbers of miners from Alaska. No news strikes have been made and the miners are being starved out. Provisions are high and scarce.

Faction Riot in Toronto.

TORONTO 26.—The Hibernian and Britons life and drum bands met at the corner of King and Jarvis streets last night, when a free fight was indulged in. Several were slightly wounded. The police dispersed the mob.

Second Pacific Scandal.

WINNIPEG 1.—The Free Press this morning makes another savage attack on the government under the heading "second Pacific scandal," charging Greenway with receiving money from the Manitoba Central Railway for his election fund.

Is It Scott's Skeleton.

WINNIPEG 27.—The skeleton of a man was unearthed yesterday while excavations were being made for the Red River railroad bridge over the Assiniboine. It is thought it may be the remains of Thomas Scott, who was shot by Riel.

Thinks Highly of the Country.

MONTREAL 28.—Henry F. Moore, agricultural editor of the London Times has just returned from a tour in the Northwest. He thinks very highly of the country both for wheat raising and cattle ranching. He will continue to write a series of letters to the Times.

A Serious Affair.

MONTREAL 28.—Advices from Compton indicate that the riotous Italian laborers will not back down without a fight. The rails have been removed for a long distance in front of the train carrying the militia and the men had to march. A conflict is expected tomorrow. Col. Houghton, D. A. G., of the Fifth Military District, will have charge of the military operations.

Dynamite in Montreal.

MONTREAL 26.—An attempt to blow up a street car on Notre Dame Street was made last evening. Some one placed a large dynamite cartridge on the rail. The first car that came along stopped before wheel struck the dangerous explosive and Constable Dinelle took the cartridge in charge. The car at the time was filled with passengers, amongst them several well known local politicians.

Riotous Italians.

SHERBROOKE, Que. 26.—Corbet and Shirley, contractors of the Hereford branch railway, have skipped out, leaving about seven hundred Italians unpaid. When the men heard that the bosses had skipped, they commenced rioting and have taken complete possession of Sawyerville and threaten to destroy the town if not paid. The inhabitants are panic-stricken. The 8th Compton battalion have gone to the scene of the trouble. The situation is serious.

Senator Ross Dying.

QUEBEC 2.—Hon. Senator Ross is dying. Senator Ross is a doctor by profession. He was Premier of the Province for several years.

A Terrible Drip.

OTTAWA 27.—A shocking fatality occurred at the exhibition today. One Winsley, a young butcher, was assisting others in holding down a balloon before the ascension, and not releasing his hold on the ropes in time, was carried upward one thousand feet. Twenty thousand spectators witnessed his peril and were paralyzed with fear. Finally his strength gave out and he fell into the field outside of the grounds and was smashed to atoms.

Very Defiant.

SHERBROOKE 29.—The unfortunate Italians continue very defiant at Sawyerville junction. Yesterday they carried their obstructions so far as to again prevent the continuance of track laying, which was being carried out under the protection of the military, and it had to be suspended until the rioters were driven off at the point of the bayonet. Advices from the American end of the road say that today Italians armed with guns drove off the sub-contractors and chased them into Cannan, Vermont.

Sealers Attacked.

VICTORIA 28.—The sealing schooner Maggie Mac, Captain Dodd, has arrived with 1,400 skins. It is learned that in July a party of her hunters were sealing off the Russian coast. They noticed an object on the shore supposed to be a walrus. When they arrived near it, they discovered it to be an Aleut armed with a rifle. He opened fire on the boat and another shot followed from the shore. One man in the boat was struck in the thigh, the rest bare escaped with their lives. The wounded man is now here. It is impossible to obtain precise information today, but the men all agree that they were in or near Russian territory. Several other sealers arrived today.

ACROSS THE SEA.

The Mahdi Said to be Dead.

MARSAWAH 2.—It is reported that the Mahdi is dead at Khartoum.

Terrible Tenement Fire.

CRONSTADT 29.—A lofty wooden tenement, filled with people was burned here today. So far sixteen bodies have been taken out.

The Whitechapel Murders.

LONDON 27.—The evidence so far elicited seems to indicate that the Whitechapel murders have been committed in the interest of the medicos.

Nihilists Again.

LONDON 26.—Russian refugees state that an attempt was recently made to assassinate the Grand Duchess Catherine Michael Veyana and members of the Imperial Russian family by throwing a bomb into her palace.

Frederick's Diary.

BERLIN 1.—The National Gazette states that the recently published extracts from Frederick's diary have been compared with the text of the original and have been found to agree with the original word for word.

No Clue Yet.

LONDON 2.—The police have got no clue to the White Chapel murders. Several arrests have been made on suspicion, but there is little hope of any one of them being the man wanted. The Lord Mayor has offered five hundred pounds reward for the arrest of the murderers.

Disatisfied Miners.

LONDON 28.—A conference of miners was held at Manchester today, the delegates to which represent two hundred and fifty thousand strikers. It was decided to cause a general strike on October 29th unless an advance of ten per cent is made in their wages.

Tends to Imperial Unity.

LONDON 28.—A telegram from Ottawa stating that the Dominion Government has received advices from the Australian Government, urging that negotiations for closer relations between Australia and Canada be undertaken, is arousing comment here. The Daily Chronicle voices the sentiment in an editorial today when it rejoices at the movement as distinctly

tending to Imperial unity, and says that if both Colonies wish to enter into such negotiations it is quite safe to assume that the Imperial Government will gladly give the required assistance. The Australian invitation is opportune in view of possible retaliation by the United States. The various parts of the Empire will ultimately recognize the wisdom of forming themselves into a sort of Zollverein. The Empire could afford to adopt the American policy of free trade between the various States and protection in dealings with other countries.

The Pope Celebrates High Mass.

ROME 1.—The Pope celebrated high mass for the dead at St. Peter's today, to solemnize the close of his jubilee. The congregation numbered twenty thousand persons. His Holiness was given an enthusiastic reception.

Fighting in Africa.

LONDON 2.—Advices from Africa say that an expedition consisting of three hundred Hussars led by English officers left Windhabah on the gold coast to punish the Logo negroes for murdering Captain Dalrymple. The expedition was met by a well armed force of natives and a severe engagement took place. The natives were defeated with the loss of three hundred. The Hussars also suffered heavily. 64 of their number were killed.

Priests Sentenced.

DUBLIN 28.—Fathers Ferelly and Clark who were sentenced yesterday, under the Crimes Act to six weeks' imprisonment have appealed from the sentence. Pending their appeal they are allowed their liberty. At today's sitting of the exchequer court the presiding judge refused to entertain an appeal to quash the verdict of the coroner's jury in the case of Mandeville. The appeal was made in behalf of the Governor of Tullamore jail.

An Artist's Predicament.

LONDON 28.—Professor Herkomer, the famous artist and Associate of the Royal Academy, recently married his deceased wife's sister in Munich. As such a marriage contracted by a British subject is illegal in England, the Professor became a naturalized subject of the German Empire previous to the ceremony. This of course legalizes his marriage in any country, but the question is now raised that by renouncing his British allegiance he has forfeited his membership in the Royal Academy.

The African Explorers.

LONDON 29.—Mr. Farran, Stanley's Syrian interpreter, has arrived in London. He left Aruwimi on account of illness three days before Major Bartlett took his departure. He confirms the stories of Bartlett's ungovernable temper and brutality to the natives, and says he expected he would be killed before the expedition reached its destination. Stanley, he says, enforced a policy of kindness toward the natives while he was at Aruwimi, but as soon as he was gone Bartlett's brutality was more pronounced than ever. Farran believes that Stanley has reached Emin Bey, but admits that anxiety for his safety is justified. Tippu Tib hated Bartlett and obstructed his progress as much as possible.

More Murders.

LONDON 1.—This evening the whole city was again startled by the news that two more murders had been added to the list of mysterious crimes that have recently been committed in Whitechapel. The two victims as in former cases were discolored women of the poorest class. The first murder occurred in a narrow court off Berners street at an early hour this morning, beneath the windows of a foreign socialist club. A concert was in progress and many members of the club were present, but no sound was heard from the victim. The woman had been seized by her throat and her cries choked while the murderer with one sweeping cut severed her throat from ear to ear. The other murder was committed three quarters of an hour later in Mitre square. A policeman patrolled the square every ten minutes. The body of the unfortunate woman had been disemboweled, her throat cut and her nose severed. The heart and lungs had been thrown aside and the entrails were twisted into a gaping wound around the neck.

Canadians Successful.

LONDON 27.—The Canadian footballers defeated Middleboro three goals to two today.

UNITED STATES.

The Fatal Pestilence.

JACKSONVILLE 27.—A hundred and three new cases and twenty deaths from yellow fever are reported today.

The Imprisoned Anarchists.

CHICAGO 28.—Efforts are being made to secure pardons for Fielden and Sobell the imprisoned anarchists.

Yellow Jack.

JACKSONVILLE 28.—A hundred and thirty-one new cases of yellow fever are reported, including 81 negroes and forty whites.

Severe Storm in New England.

BOSTON 27.—A severe rain and wind storm did great damage throughout the New England states yesterday. Several lives were lost.

The Chicago Wheat Corner.

CHICAGO 29.—Great excitement still continues over the corner in wheat. Hutchison, who has operated the deal successfully, will clear over a million dollars.

Poor Dakota.

JAMESTON, Dak. 29.—Reports of prairie fire losses are coming in from every direction and the worst fears are more than realized. Between James and Lamoree, a strip of country fifty miles wide was burned over. Hundreds of farmers sustained heavy losses.

Rampant Anarchy.

AUSTIN, TEXAS 28.—All yesterday and today most alarming telegrams continued to pour in on Governor Ross, informing him that there is war, bloody and fierce now raging on the Texas frontier and that Rio Grande city is in possession of an armed Mexican mob. They all demand troops immediately and convey the impression in plain words that rampant anarchy exists on the border and that the lives of Americans are in imminent peril.

SPORTING.

O'Connor Defeats Lee.

TORONTO 27.—O'Connor defeated Lee in a two mile sculling race today by one length.

The International Pennant.

TORONTO 29.—The international series of baseball matches closed yesterday. Syracuse is first and Toronto second.

Hanlan Again Beaten.

SYDNEY, N.S.W., 29.—The race for the sculling championship between Hanlan and Kemp was rowed on the Parumatta river today, and was won by Kemp by ten lengths.

Baseball at Medicine Hat.

MEDICINE HAT 27.—The baseball tournament began this afternoon with splendid weather. The first match was that between Donald and Lethbridge. At the end of the 4th innings the score stood Lethbridge 7, Donald 3. The next few innings Donald went ahead and at the end of the seventh innings Donald had secured 18 runs to Lethbridge's 8. The game resulted in favor of Donald by a score of 19 to 1.

MEDICINE HAT 28.—Yesterday afternoon the Calgary team played their first game in the tournament, being pitted against Medicine Hat. The match resulted in favor of Medicine Hat by a score of 18 to 17. This morning Donald played Medicine Hat. Up to the beginning of the 8th innings the teams were tied. At the end of the innings Donald had won 17 runs to Medicine Hat's 11. Play then stopped, the Medicine Hat men acknowledging themselves beaten. This afternoon Calgary tried conclusions with Lethbridge. At the end of the seventh innings Lethbridge had secured fifteen runs to Calgary's nothing. The game finally resulted in favor of Lethbridge by a score of 21 to 4.

MEDICINE HAT 29.—Calgary vs Donald, time called at first half second innings owing to Smith, Donald catcher, breaking the middle finger of his right hand. Score, Calgary 1, Donald 0. End of fifth innings, Calgary 11, Donald 5. Duncan in box, Waddell indisposed, Cowan taken on.

MEDICINE HAT 1.—The match between Calgary and Donald on Saturday resulted in favor of Calgary by a score of 18 to 12. Donald today played Medicine Hat for first money and won. Calgary played Lethbridge for the third prize and lost.

CORRESPONDENCE.

A Peculiar Examination Paper.
To the Editor of the Herald.

Sir,—Under the above heading you say in a recent editorial, (1.) "it was particularly specified in the curriculum that this paper on English literature was to be upon Sir Walter Scott's Lady of the Lake." (2.) "that every candidate who attempted the examination failed." (3.) "this absurd paper." (4.) "it was this paper on literature alone that plucked her, Miss Andrews." (5.) "her marks on all other subjects were excellent." (6.) "it is anything but generous treatment to pluck a candidate who came so near to the standard" etc. Now, sir, from the following you will find all the above statements are incorrect.

At page 19 of the curriculum you will find that protestant candidates for second class certificates are required to be acquainted with the outlines of the history of English literature, and to be familiar with the work or works of some English author assigned from time to time for special preparation, and amongst the books prescribed for the use of candidates for second class certificates are, amongst others, "Storford Brook's English Literature," from which by the way, the first three out of the seven questions given at the recent examination, second class, were taken. Question 4 is so easy that any of Macaulay's proverbial school boys would dream its answer, describe the leading histories of England? Questions 5, 6 and 7 are simple and from Scott's best known works—simple for any boy or girl of ordinary brains, and in this subject Miss Andrews, the winner of the Lineham gold medal and of Mr Kennedy's prize, got 36 marks out of 150. (2.) "that every candidate who attempted the examination failed" is absurd. Very many of the candidates made creditable marks in English literature. (3.) "the paper is the reverse of absurd, it is a comparatively easy but sound test of what an aspirant for a second class certificate should make 90 per cent on. (4.) "it was this paper on literature alone that plucked her." It was not, Miss Andrews also failed in grammar, algebra and euclid, she made only 48 out of 150 in grammar; 45 out of 150 in algebra, and only 25 out of 150 in euclid. This also answers your No. 5 statement. (6.) "is it generous or unfair" to pluck a candidate who has made such ignominious failures in so many important subjects? Decidedly not. Would you yourself as a scholar and a gentleman like to send your children to a teacher making these failures? No indeed.

There are two sides to every story. Mr. Editor, and as your excellent paper is, I see, conducted on the audi alteram partem principle, I hope you will be good enough to insert this letter.

A word to aspiring candidate's for teachers' certificates. (1) Don't go beyond your depth. Take Pope's advice, "Drink deep or taste not the Pierian Spring." If you fear you can't take a second class certificate try a third. Be humble and satisfied with small beginnings. (2) Study the books the Board tell you to, and you cannot fail. (3) The examiners are morally bound to give the public "generous" treatment by plucking dunces or unfit candidates. No favor even to the dear ladies. Be generous to yourself by studying the right books and studying them well. (4) When you are plucked don't fret and fume and beat the air and run to bold, bad editors with "yarns". Gird up your loins and fix your bustle and take "Excelsior" for your motto.

Candidates if you take this advice you will all win next time and bless the Calgary Herald, even though it did "go for" the examiners.

ONE WHO KNOWS.

Regina, Sept. 25, 1888.

(It is but a matter of common justice to state that the article in the HERALD was

not inspired by any of the candidates nor even written with the knowledge of any one of them. It is also as well to point out that the HERALD did not make the definite statement "That every candidate who attempted the examination failed." The HERALD's statement was:—"When the remarkable character of this paper is considered, it would not cause much surprise to learn that every candidate who presented himself for the examination failed. At any rate one promising young lady who presented herself for the examination, has come to grief over this absurd paper." As to Miss Andrews' marks, it was pointed out that although she only required 830 marks to secure her certificate, she won 824 in spite of the fact that in the literature paper she only obtained 45 out of a possible 150.—ED. WEDNESDAY, OCTOBER 3, 1883.

A DISGRACEFUL ADMISSION.

Col. Herchmer while at Macleod made the Gazette eat the leak for its false statement that the colonel had disagreed with his brother judges at the fall race meeting. The Gazette in its last issue received here gives a column and a half of space to Col. Herchmer's emphatic denial and comments thereon. The gist of Col. Herchmer's explanation was that he did not hold out against the decision of the other judges, giving Roy Patchen the trotting race. As the very contrary was deliberately stated by the Gazette and made the theme of the vicious and uncalled for attack upon the other judges, it would be imagined that common decency would have deterred the Gazette from further comment. Nothing of the sort. While publishing this emphatic denial of the essential statement of its original article, it has the effrontery to ask its readers "whether that other side presents sufficiently strong evidence to shake the position we previously assumed." An amusing feature of our contemporary's absurd attempts to wriggle out of its false position is its professed anxiety "to elevate horse racing to the honorable position it should be," while in the next column it says:—"Messrs. Burns and Wentworth will both admit that they wanted Bob to win the race, but there is nothing out of the way in that, as long as no one lost money on W. H." In other words the owners of two horses can conspire to allow the worse horse of the two to win as long as a third competitor is beaten. Was a more monstrous or un-sportsmanlike doctrine ever enunciated? When a horse is entered for a race his owner is supposed and bound, to do his best to win, and if he has his horse held, he is guilty of breach of confidence and of absolute dishonesty, just as much as if he stole and carried away the pool box. The prize is offered for the best horse, and the public pays the price of admission to see the best horse win it. If the best horse is prevented from winning in favor of another, the prize is dishonestly won and the public is cheated out of its enjoyment of the legitimate sport it paid its money to see. The race is in fact made a fraud in every respect, no matter whether the bettors have any money on it or not. How, moreover could the conspirators in this case have known that there was no money bet on the result. For all any man could tell, there might have been thousands of dollars staked against the horse arranged to win and the Gazette even must see that its two ideal sporting men (sic) admit that their conspiracy was a clear swindle against the bettors against "Bob." The conspiracy then was an intended extensive fraud upon the betting fraternity, a mean deliberate attempt to steal all of the money staked on the field against Bob; and yet the Gazette has the wool so thoroughly pulled over its eyes, or is so lost to all sense of justice, that it cannot see that there is anything to condemn about this disgraceful arrangement. Horse races, are not now a days, thank goodness! managed in the interests of the pool box or the gambling fraternity and the principal condemnation of this conspiracy, which is acknowledged in so bare faced a manner by the conspirators' own organ, is to be based upon the fraud contemplated to be practiced upon the non betting, legitimate sport

loving public. The audacity of a paper which contains such an outrageous scandal and then has the impudence to speak of elevating horse racing to the honorable position it should be, is utterly incomprehensible. Since the Gazette thus frankly poses as the organ of race track tricksters and approves of their crooked methods, it is to be hoped that it will now cease abusing Calgary people on the strength of false charges that they do the things which it approves of in its own circle. As a matter of fact though, after this disgraceful admission of the Gazette, its condemnation is rather to be courted than its approval. Since the Macleod Gazette published its first attack on the judges of the Calgary races, a race meeting has been held at Macleod. Can the Gazette or anybody else pretend to say that the meeting was free from fraud and crookedness? Still there is no paper published outside of Macleod so lost to neighborly feeling and decency as to attempt to ruin the reputation of the Macleod Association by declaring it solely responsible for this crookedness. That is one particular in which the Gazette differs from its contemporaries.

A RIELITE'S FALSEHOODS.

Of all prevaricators commend us to the Rielite liar. He is the champion of the Dominion if not of the universe. A few days ago the HERALD published the following:—

Col. Amyot, who commanded the 9th Battalion stationed here during the rebellion, is making a number of speeches on behalf of the liberal candidates in Quebec. In a late speech he remarked:—"Four years ago Sir John founded two industrial colleges, one at Qu'Appelle and another at Calgary, but one of the conditions was that there should be no French or Catholic teachers, and that the French and Catholic religion should not be taught. A convent had been founded at Calgary, but on condition that there be no French nuns and that French was not to be taught." "There are representatives of the press here," exclaimed the speaker, "and I wish it to be stated that the member for Bellechue declares these things on his own responsibility."

On enquiry, it appears that this statement, made with such deliberation, is nothing more than a tissue of falsehoods. The Rev. Father Leduc, the esteemed parish priest of Calgary, whose name must be familiar to Col. Amyot and the other Rielites, for he has been frequently quoted and often shockingly misquoted by them, has given a representative of the HERALD some interesting information on this subject. The Reverend and gentlemen states, as in fact is generally known here, that the government industrial schools both here, or more properly High River, and at Qu'Appelle are under Roman Catholic management, and all of the teachers are Roman Catholics, the principal of each school being a priest. The Roman Catholic religion is the only one taught in these schools, while the Battleford school is under Protestant management and the Indian children attending are brought up in it as adherents of the Protestant church. In other words the Government established and maintains two Roman Catholic industrial schools for the education of Indian children and only one Protestant one. The Reverend gentlemen of course gave a complete denial to the yarn about the Calgary convent. He explained, as all residents of the town know, that not only is there no condition that there should be no French nuns and no French taught but as a matter of fact a large proportion of the nuns are French and French is taught in all of its branches. The convent is under the Board of Education of the Territories, of

which the Reverend gentleman is a member, and is directly controlled by a separate Roman Catholic school board. Further on he stated that not a large proportion of the officials of the industrial schools are French. Qu'Appelle School is under the charge of Rev. Father Hugonard and several of the nuns on his staff are French ladies. Among the French members of the staff of the High River school are Rev. Father Claude, the principal, and Brother Aube, the Farm Instructor.

It is unnecessary to publish more to show the utter absurdity of the charges made in such a bare faced way against the government, nor is comment necessary. It is just about time that these Eastern liberal fanatics, who do not care how the country is injured by their unseemly scramble after power, ceased posing as the heaven born defenders of Northwest rights. They are continually misrepresenting this country as writhing under the iron heel of oppression and thus effectually impeding the flow of immigration; but what do they care so long as their falsehoods arouse the prejudices of misled eastern electors and secure votes for their party. If there ever was a case of covered love we find it in the pretended affection of the amiable Rielite for his poor suffering brother of the Northwest.

ALBERTA'S UNEQUALLED CROPS.

There is good cause for congratulations in the promptitude with which some of our people who are engaged in agriculture have afforded Mr. Miquelon, the Dominion Immigration Agent the information as to the yield which he asked for through the HERALD, to assist him in preparing his report to the Department of Agriculture upon the crops in this district. Dr. N. J. Lindsay was one of the first to comply with Mr. Miquelon's request, and he went to particular pains to give that energetic official the most reliable data available. The doctor invited Mr. Miquelon to his farm just across the Elbow and asked him to point out a place in a ten acre field of oats where he would like to have a couple of acres measured off to test the yield. Mr. Miquelon indicated a portion of the field and it was measured off forthwith and reaped. When the golden sheaves taken off this measured two acres had been put through the threshers, it was found that the yield was no less than 158 bushels, or 79 bushels to the acre, a simply marvellous yield, when it is remembered that the recognized standard of a very superior yield in Ontario and throughout the United States is 30 bushels to the acre and that the yield there is generally very much lower than that.

Mr. Lindsay's whole field of ten acres has since been reaped, the total yield being 700 bushels, or 70 to the acre.

Wonderful as the yield appears expressed in bushels, the rare excellence of this crop can only be thoroughly appreciated when the weight is considered. On being weighed, the oats off this field were found to weigh 47 pounds to the bushel. Now as the recognized weight of a bushel of oats is 34 pounds, a little calculations shows that the yield of the whole ten acres measured by weight was at the rate of 97 bushels to the acre, while the two measured acres produced no less than 109 standard weight bushels to the acre. This crop is by no means an exception to the rule, as other farmers report equally marvellous crops, not only of oats, but of wheat and barley. A very large proportion indeed of the land under cultivation is new land, never tilled before this year. Even the crops on this land are reported to be good and yields of 45 and 50 bushels to the acre of oats sown on the newly turned sod are said to be common.

Who was it that said that Alberta would never be a grain producing country?

A SIGNIFICANT VICTORY.

The fomenters of national prejudice have received a knock down blow in Montreal East. They staked everything on this election and have been signally defeated. Montreal East comprises the main part of the French Canadian population at the Commercial Metropolis and became vacant by the death of the late Judge Cousin, a nationalist conservative, who fell out of touch from the conservative party by giving in his adhesion to the Rielites. The Quebec liberals consequently had as good a chance as they could hope to have of capturing the constituency, and they have not scrupled to stoop to anything that could secure the return of their candidate. The whole force of the liberal party in Ontario and Quebec has been thrown into the contest. Mr. Laurier, the leader of the liberals in the House of Commons, has been on the spot for a week, while Mercier, the Provincial premier, and all of his benchmen have been on hand to pull the wires. An immense election fund was raised, and the agents of the party of political purity have been boasting that they had more money than they could place. Meeting after meeting has been held and the people were exhorted to vote for commercial union and for race and revenge.

Under the circumstances, the result does credit to the calm common-sense of the electors and is encouraging as showing that the French Canadian people are actuated by something else besides hostility to their English fellow subjects. A few more such splendid victories as this will convince Laurier, Mercier and the other demagogues that the Riel cry is about played out. Where, by the bye, is Mr. Laurier's and Goldwin Smith's predicted reaction against the government of Sir John A. Macdonald?

A LESSON OF THE FAIR.

The Fall Fair is acknowledged to have been a success, a great success in fact, considering the circumstances; but if this institution is to be the success in the future that it ought to be, there will have to be some radical changes in the system of management. The directors of the Agricultural Society and all the officials of the Fair are deserving of great credit for their arduous efforts to make the show a success, and it is generally acknowledged that, on the whole, the fair was ably managed. The exhibits, however, were not large and they will never be as numerous and representative as they ought to be, until the entry charges are much reduced or done away with altogether. These high charges for entering exhibits must have deterred many farmers from exhibiting. Of course money has to be obtained from somewhere to meet the heavy expenses of such an event as this, but cannot it be raised by some method which will not discourage intending exhibitors from making a display? By reducing the entry charges the number of entries would be increased and the reduction in the income from entries would not be much after all. Then, the display being more complete will attract more visitors and the gate receipts will be increased. It appears to be the opinion of many that the prizes could judiciously be reduced in value and a saving effected in this way. However the financial difficulty is surmounted, it must be acknowledged that the entry charges must be reduced if the exhibition is to be the success it should be.

A PROFITABLE ENTERPRISE.

As the HERALD foretold early in the summer, when agitating for the collection of an exhibit of Alberta produce to send to the Eastern fairs, the people who have visited the Toronto exhibition have been fairly amazed at the splendid crops produced in this district. The papers are devoting a great amount of space to glowing accounts of the Calgary exhibit and we read of the corridors round the exhibit being thronged with interested and surprised sightseers. It is safe to say that Alberta is being discussed by the people of Eastern Canada as it has never been discussed before, and for the first time, its superior attractions as a mixed farming country are being recognized. The wonderful success of our exhibit, first in capturing the Canadian Pacific's prize over every district in Manitoba and the Northwest and subsequently in attracting the attention and admiration of the multitudes at the Eastern shows is bound to have a wonderful effect in the way of diverting the stream of immigration in this direction. It should also convince the government that the country has an unequalled agricultural future before it. If it does, we shall not have long to wait for our much needed experimental farm and model dairies. This exhibit promises to be a singularly profitable investment for Calgary.

THE GRITS AND LAND GRABBERS.

The Toronto Globe has been making a violent attack upon colonization companies and land speculators, and as usual when it attacks anything, describes the supposed evil as of tory origin. The Empire promptly shows its erring contemporary its mistake in this manner:—"Really, the Globe should have more consideration for the feelings of its leaders, past and present. It fiercely assails 'colonization companies,' as though it forgot that Mr. Alexander Mackenzie legislated for their formation and presided over one in which he was a shareholder. It bitterly denounces Northwestern 'land grabbers and speculators,' as if the fact had quite slipped its memory that Sir Richard Cartwright and Mr. Cameron (late of Huron) were very extensive land speculators in the Northwest. Does the Globe mean that it is only wicked for 'Tories' to have an interest in Northwest lands?"

A PRACTICAL PLAN.

Mr. Boag purchased the first and second prize oats exhibited by Mr. John Paterson at the Agricultural show Wednesday. There are two sacks of them and they weigh 491 pounds to the bushel. Mr. Boag is availing himself of the arrangement made by L. A. Hamilton, C. P. R. Land Commissioner, for sending farm products from the Territories for exhibition in the east free of charge, and is sending these oats to the country

show at the town of New Market, North York, Ontario. This form of advertising the country is a practical one. If Mr. Boag's example were followed by others, it would have a good effect in making the merits of the district known.

THINGS WORTH KNOWING.

The imported food bill of the United Kingdom from countries other than their Colonies in round numbers annually amounts to:—

Live Animals.....	\$ 46,000,000.
Meat, salted, frozen, etc.....	76,000,000.
Butter and cheese.....	79,000,000.
Eggs.....	10,000,000.
Grain and flour.....	285,000,000.
Potatoes.....	12,000,000.

Total.....\$ 498,000,000

With retaliation by the States, Imperial Federation with the rest of the Empire and a fair per cent. import duty on all the above products not coming from the Colonies or India as advocated by the league, in a very few years the whole of them would be supplied by the Colonies. And Canada would doubtless get the lion's share and hundreds of pounds sterling and hundreds of people that now go every year to the States would come here and rapidly fill up the country especially the Northwest. Why not form an imperial Federation league?

PHOTO

ALL SORTS OF THINGS.

It is all very well for people to run down the C. P.R.; but nevertheless the management of the great company shows its enterprise and determination to assist in the work of developing the country, when opportunities arise. There would have been no Calgary exhibit at Toronto, but for the enterprise of the "hearties," overbearing monopoly we hear so much about.

In the removal to Ottawa of Mr. McGirr, late chief clerk in the Indian Department at Regina, the Northwest branch of the Indian service loses an able and painstaking official. The Northwest will not suffer though, for as secretary of the department, he will occupy a position where he can do an incalculable amount of good work for the country where he lived so long and in which he was so universally respected. He will do it too.

Some 3,500 Alberta cattle have so far been shipped for export to England, and there are more to follow. Wonder what our so well informed contemporary the Macleod Gazette thinks now of its rash prophecy that there would not be 1,000 head of cattle exported this year. What troubles the HERALD, is that when it was so obliging as to give its misguided contemporary a straight tip, the Gazette refused to be enlightened and got unreasonably cross about it.

Up to this spring butter and cheese were imported for the Calgary market. So progressive has been the dairy industry in this district that not only have our dairies supplied the local market with butter and cheese of better quality than was available previously, but Alberta butter shipped from here is quoted on the British Columbia market as a staple, and there is quite a respectable surplus of prime Alberta cheese on hand for shipment. Who will say that Alberta is not going ahead?

Most of the Northwest papers are discussing the desirability of extending the militia system to the Territories, to which attention was first drawn by the HERALD. Some of our contemporaries appear to confuse the demand for the introduction of the militia system in the Territories, with a design to secure the abolition of the Mounted Police. It does not follow that the establishment of militia will result in the abolition of the police force. It will be a long while before it will be safe to abolish the police force.

It is somewhat singular that Laurier, Cartwright, Blake, Amyot and other Rielite liberals who profess unyielding friendship for the Halfbreeds and Indians of the Northwest and are constantly prating about the grievances they are supposed to be afflicted with, but which in reality have no existence, that they should support the absurd and useless prohibitory liquor law which is so much detested by the white population. Do these gentlemen think that the white population have not some claim to justice and freedom as well as the dusky savage and his half brother?

British Cattle Market.

There has been no positive change in the British cattle markets, but the tone has continued easy. Our cables today reported light receipts from Canada and the United States, while the supplies from elsewhere have been heavy, in fact trade has dragged somewhat. Prime Canadian steers were at 12s. good to choice at 11½s. poor to medium at 10½s. and inferior and bulls at 8s. 9d. In Liverpool today sheep were weak and lower. Best sheep were at 13s. secondary grades at 11s. 6d. merinos 10½s. 11½s. and inferior and runs at 8s. 6d. The foregoing quotations are calculated on the basis of 4.80 in the £. Refrigerated beef is quoted as follows: Liverpool, 6½d. hindquarters and 4½d. for the forequarters per lb.; London—hindquarters 3s. 8d. and forequarters 2s. 6d. per lb., by the carcass.—Montreal Gazette 25.

Some of the Exhibits.
There were two fine collections of old coins from all parts of the world. The one was shown by Mrs. Stewart Moore comprising over 100 different coins and the other by Mr. F. E. Young numbering over 60.

Messrs. McBride & Co., hardware merchants, showed some very good work in way of zinc cornices made by themselves on their premises Stephen Avenue. This branch of manufacture is an important one for Calgary, as previous to its introduction by Mr. McBride cornices were all imported from the United States, often taking a long time to get them through. It will be remembered that the warehouse of I. G. Baker & Co. remained unfinished for several months on account of having to import the cornices from the States.

The exhibit of Mr. G. E. Jacques, jeweller of Calgary, was a very fine one indeed. Amongst the articles shown were noticed a large number of 18 karat gentlemen's and ladies' gold watches in various styles. There was also a case of 18 karat plain wedding rings, enough to join all the single people in Calgary in wedlock. There were also diamond rings and brooches. There was also a beautiful epergne in silver. In clocks there was almost an endless variety of regulators, parlor clocks, calendars, etc., etc., besides a lot of gold chains, ear rings etc., the whole making an exhibit well worthy of Toronto's great industrial fair.

DAVIDSON BROTHERS.
Davidson Brothers' show of jewellery at the fall fair yesterday was a very good one, showing that Calgary can afford to support first class establishments in goods used only by those who spend money for things generally regarded as luxuries.

HARDWARE, STOVES, TINWARE.

The exhibit of Mr. Edwin R. Rogers attracted attention at once on entering the building, as it is conspicuously displayed on the right hand of the entrance door occupying the whole space from door to wall. The hardware display on the walls, combined with tinware made a back ground on which the hanging lamps made brilliant effect. The stoves are of the latest design. The oval fuel pot of the cooking stove is worthy of attention, as it combines saving of fuel with the greatest amount of heat. The Range is the most complete cooking apparatus ever exhibited in Calgary, combining as it does the beautiful and useful. The tinware and copper were displayed on the stove is worthy of note. It is made on the premises by Mr. J. Chapman, whose work would do credit to any exhibition. The Davey tinware should be inspected by every farmer. From the 25 small cans for conveying milk from the farm to the creamery or cheese factory, to the five pound tins for the shipment of Alberta butter, every article is useful in the development of the dairying interest. A special creamer is exhibited that is the best in the market. A tube is placed in the centre of the can running from top to bottom, and when the can is placed in water this tube permits the water to equalize the temperature as the milk is heated upon from the outside and from the inside, thus securing a greater percentage of better cream from a given quantity of milk.

The packages for the shipment of butter are what is wanted, being cheap, clean and attractive, as they are stencilled in bright colors with weight of butter and quality named. The coal oil heater is a new departure in the way of heating. A coil of wrought iron pipes is enclosed in a handsome grate and mantle and this coil filled with water is acted upon by the flame of wide coal oil burners, which heat the water in the pipes and thus form a perfect hot water radiator. The heat coming from grate was proof of its capabilities.

MURDOCH'S SADDLERY.
The display of goods made by Mr. Geo. Murdoch in the line of saddlery comprising two stock saddles and bridles, three pairs of chapareros, horse blankets, wolf sleigh robes and lap robes, were all exceedingly fine goods. As a contrast to these magnificent saddles Mr. Murdoch showed a saddle of the old Indian pad style decorated with bead work to which is attached a scalping knife and scabbard, also profusely beaded and trimmed with mink fur. The stock saddles made by Mr. Murdoch are a branch of industry introduced by him in the year 1884, he having brought an experienced man from Portland, Oregon, at that time to make the saddles. Previous to that time all stock saddles used in Canada by the Mounted Police and cow boys as imported from States. Mr. Murdoch is still making these goods and has all the orders he can possibly fill. He intends getting on more men to meet the demands of his growing trade.

DRUGS AND MEDICINES.
S. W. Trott had a very complete exhibit of drugs and medicines and other goods in his line, all tastily arranged, giving some idea of the large and varied stock which he carries. Mr. Trott's line includes all that anybody may want from a little liver pill to a carboy of sulphuric acid.

CATTLE DRUGS.
Conspicuous amongst the merchants exhibits and in harmony with the occasion, one could not fail to notice Mr. Frederick Gillespie's tastefully and attractively arranged stall, consisting of English cattle drugs from the well known firm of Day, Son & Hewitt, so famous for their Red Drench and Gaseous Fluid; also Jeyes Perfect Purifier and Sheep Dip, the latter of which has met with so much favor in New Zealand, Australia and the Cape and in the vast sheep grazing districts of South America, where it has taken the lead of all others. In addition to the above Mr. Gillespie showed a fine sample case of dried grasses arranged by Sutton and Sons of Reading, England.

MINERALS.
A cabinet of mineral specimens was shown from the mines at Illecillewaet, B. C., which was very interesting to those acquainted with ores. Experts say that the samples were very rich in the precious metals.

PHOTOGRAPHS.
Mr. A. J. Ross showed a splendid lot of photographs. In addition to the art displayed in taking and toning up these pictures noticeable by any one, the fact that most of them were photos of parties well known to visitors, made of the realistic life like character of them unmistakably observable to most visitors at the hall.

RANKIN & ALLAN.
The display of goods made by Messrs. Rankin & Allan was worthy of that enterprising firm. The centre of the east end of the hall was filled with goods that would compare favorably with anything that could be seen in Toronto. Amongst the many articles exhibited we noticed chinelle and antique curtains hung in graceful folds, Smyrna and Persian rugs shown in soft beautiful colorings, while below were ranged English, Scotch and French tweeds. The neatness and taste displayed in this the only dry goods exhibit, deserves special mention. The thanks of the Association are deservedly earned by this firm for the part they did towards making the Agricultural show a success.

A FITTING CONCLUSION.

From 7 to 8:30 supper was served; and such a supper! The tables fairly groaned under their luscious loads, and every dish that the culinary art has evolved was there. Needless to say the viands were done hearty justice to. The supper over and the tables cleared away a feast of oratory interspersed with music was the attraction. Speeches were delivered by the President of the Agricultural Society, Mr. Amos Rowe, Mr. Stewart Moore, Mr. Justice Rouleau, Rev. J. F. Betts, Mr. Reilly, Rev. Father Ledue, Rev. Leo Gaetz, Mr. C. Sparrow, Mr. L. Hamilton and Rev. J. C. Herdman. The speeches over dancing began and was industriously kept up until the wee hours of the morning, when the party broke up, agreeing that the entertainment was as great success as anything possibly could be. It must, however, be recorded that previous to the party dispersing, a resolution was passed on motion of Mr. James Bannerman, seconded by Dr. Lafferty thanking the ladies' committee for their successful efforts in connection with this splendid entertainment. Councillor Allan, himself an enthusiastic worker in connection with this event responded. The ladies who bore the brunt of the work were Mrs. Rowe, Mrs. Mollree, Mrs. Rouleau, Mrs. D. W. Marsh, Mrs. Janes and Miss Myers. These ladies were assisted by a whole host of their young sisters, while the sterner sex contributed the decoration of the hall.

Pretty Rosy Patchen Dead.
The game little pacer "Rosy Patchen" is dead. For a few days she had been suffering from a dangerous sore mouth and as the bad state of her teeth was supposed to have something to do with this, she was thrown to have them filed. In the operation of throwing her, one of her hind legs was broken at the thigh. The patient little animal lying quiet, it was not known that the accident had occurred until the leg began to swell. The fracture was too high up the limb to reduce and after satisfying himself that nothing could be done, to save his handsome little mare, Mr. D. Cameron, her owner, gave the necessary permission to shoot her and a revolver had let had soon settled the career of one of the most promising mares of the day. Rosy Patchen was sired by Colonel Patchen, by Tom Patchen, by George M. Patchen, by C. M. Clay by Andrew Jackson, founder of the Clay family. Rosy's dam is supposed to be of Morgan descent. "The Little Mare," as she was popularly known in Calgary, was, perhaps, the most promising pacer ever owned in Canada. She was six years old and although only "handed" this season had shown great speed. At private trials, while raining for the fall meeting she paced quarters in 36 seconds, a 2:24 gait; half miles in 1:15 and a mile in 2:37, a wonderful showing considering that she had only been trained for a short time and was merely "coming."

A pathetic account is given of the poor little mare's death. She expressed her agony and helplessness as plainly as could any christian, now as if to enlist the sympathy of those present. As her owner, Mr. Cameron, was sponging her head she looked appealingly into his face and threw her eyes towards the broken limb, clearly pleading to have the pain relieved. All were much overcome, and Mr. Cameron was compelled to leave while the coup-de-grace was administered. Mr. Cameron has preserved the head of the famous little mare and has given it to a taxidermist to be stuffed. He had the remains interred in his farm beside the race track.

OVER THE BORDER.

By WALTER BESANT.

"Thou art the son, then, of my old friend, Jack Embleton? Come in, lad, come in." He seized the boy by the arm and dragged him into the house and across the shop to the sitting room. At the back, "Wife! wife!" he cried. "There is a messenger from Drury with a letter. Give me the letter, boy. And this is young Ralph Embleton, son of my old friend and gossip, Jack Embleton, with whom I have had many a fight in the old days. Poor Jack! poor Jack! Well, we live. Let us be thankful. Make the boy welcome, give him supper. Make him a bed somewhere. What art thou doing in this great place, lad? So the letter—aye! the letter."

He read the superscription, and slowly opened it and began to read.

"DEAR AND HON'D PARENTS. The bearer of this is Rafe, who has run away from cruel treatment, and wants to make his fortune in London. He will tell you that I am well, and that I pray for your health, and that you will be kind to Rafe. Your loving and dutiful d'r, DRUSILLA."

"So," went on the merchant, "cruel treatment. Who hath cruelly ill treated thee, boy?"

"I have run away, sir," he said, "from my cousin, Mathew Humble, because he seeks every opportunity to do me a mischief. And since he is my guardian there is no remedy but to endure or to run away."

"Ah, Mathew Humble, who bought my farm. Sam Embleton married his father's sister. Did your Uncle Sam leave Morwick Mill to Mathew?"

"No, sir; he left it to me."

"And Mathew is your guardian? Yet the mill is your own, and you have run away from your own property? Morwick Mill is a pretty estate. It likes me not. Yet you would fain seek your fortune in London. That is well. Fortune, my lad, is only to be made by men of resolute hearts, like me."

He expanded as he spoke, and seemed to grow two feet higher and broad in proportion. "And strong arms, like mine"—he hammered his chest as if it had been an anvil—"and keen eyes, like mine. Weak men fail and get trampled on in London. Cowardly men get set on one side, while the strong and the brave march on. I shall be, without doubt, next year, a common councilman. Strong men, clever men, brave men, boy, march, I say, from honor to greater honor. I shall become alderman in two or three years, if providence so disposes. There is no limit to the exalted ambitions of the London citizen. You would climb like me. You would be, some day, my lord mayor. It is well. It does you credit. It is a noble ambition."

Meantime a maid had been spreading the table with supper, and, to say the truth, the eyes of the boy were turned upon the cold meats with so visible a longing that the merchant could not choose but observe his hunger. So he bade him sit and eat. Now, while Ralph devoured his supper, being at the moment one of the hungriest lads in all England, the honest glover went to talking in grand if not boastful language about himself and his great doings. Yet, inexperienced as he was, Ralph could not but wonder, because, although the merchant was certainly past 50 years of age, the great things were all in the future. He would become one of the richest merchants in London; he would be lord mayor; he would make his daughter a great heiress; he designed that she should marry a lord at least. At this announcement Ralph blushed and his heart sank. One of the reasons, said the merchant, why he kept her still in Northumberland was that he did not wish her to return home till they were removed to a certain great house which he had in his mind, but had not yet purchased. She should go in silk and satin; he would give such great entertainments that even the king should hear of them; London was ever the city for noble feasting. And so he talked until the lad's brain reeled for thinking of all these splendors, and he grew sad in thinking how far off Drusilla would be as, one by one, all these grandeur became achieved.

Another thing he observed; that while the husband talked in his confident and braggart way, the wife, who was a thin woman, sat silent and sometimes sighed. Why did she sigh? Did she want to live on in obscurity? Had she no ambition?

Then the merchant had filled and lit a pipe of tobacco, and proceeded to tell Ralph how he would have to begin upon this ambitious career in search of a fortune. First, he would have to be an apprentice.

"I was myself," said Mr. Hetherington, "an apprentice, though who would think it now?" As an apprentice he would sweep and clean out the shop, open it in the morning, and shut it at night; wait upon the customers all day, run errands, obey dutifully his master, learn the business, watch his master's interests, behave with respect to his betters, show zeal in the dispatch of work, get no holidays or playtime, never see the green fields except on Good Fridays, take for meals what might be given him, which would certainly not be slices off the sirloin, and sleep under the counter at night. In short, the shop would be his workroom, his parlor, his eating room, and his bedroom.

TERRITORIAL.

DISTRESS IN THE NORTH.

Very Great According to Reliable Authority.

In view of the conflicting reports as to the existence of distress in the Peace River district, the following correspondence published in the Edmonton Bulletin is interesting—

"The Synod of the Church of England in Athabasca was held July 6th in St. Luke's church, a constitution laid down and other necessary business in connection with the church work throughout the country transacted. The enclosed memorial with regard to the present condition of the Indians was drawn up, and addressed the Minister of the Interior and signed during the session. On the following Sunday the Bishop admitted the Rev. G. Holmes of St. Peter's mission, Lesser Slave Lake, to priest's orders. The sermon being preached by the Ven. Archdeacon Reeve. The following Tuesday the Bishop and Archdeacon Reeve left for St. Paul's mission Shipewyan to hold a confirmation service there, the Rev. A. C. Garrioch, Mrs. Garrioch and Rev. G. Holmes returning up stream to their respective missions.

ST. LUKE'S MISSION, VERMILION, Athabasca, N.W.T., July 6th, 1888. The Right Honorable The Minister of the Interior.

SIR,—We, the undersigned, as members of the Synod of the Anglican Church in Athabasca Diocese, now in session, venture to lay before you for your consideration the present condition of the Indians generally, throughout this portion of the Northwest Territories, including the Provincial District of Athabasca.

There is a great decrease throughout this portion of the country, of both the larger and smaller game, as well as of fur-bearing animals, (excepting one or two kinds, such as martens and fishers, which are not used as food.) The consequence is the Indians, not only during the winter, but also in summer, are in an almost constant state of semi-starvation. This condition is, of course, seriously aggravated during the winter months, and you will perceive from the following facts, which we beg to lay before you, the very serious results which arise therefrom:—

1. The almost total disappearance of rabbits, and great scarcity of partridges.
2. A great mortality amongst the beaver last winter.
3. Present scarcity of lynx which will, in all probability, continue at least two years longer, as they are affected by the rise and fall of rabbits.

4. The above affects not only the food supply of the Indians, but also their power of procuring clothing, ammunition, &c. Many of the Indians are almost destitute of clothing, and, owing to their small take of furs, are unable to provide themselves with the necessary clothing, and hunting outfit for the coming winter.

The above scarcity has greatly decreased the number of their dogs, (so necessary to the Indian for travelling and hunting,) which have perished, thus seriously increasing the difficulty of obtaining a livelihood.

The Beavers, who used to have a considerable number of horses, have killed so many of them, on account of the scarcity of other food, that they now possess very few.

5. At Lake Athabasca and some other lakes, a great failure of the fall and winter fisheries.

6. During the winter of '86 and '87, between the Peace and Athabasca rivers, on account of starvation and consequent cannibalism, a party of twenty nine Cree Indians was reduced to three.

In the MacKenzie River District there were several cases of death by starvation, and one or more of cannibalism.

7. During the last winter '87 and '88, amongst the Fort Chipewyan Indians between twenty and thirty starved to death, and the death of others was accelerated by want of food.

A party of about twenty Beavers had to be conveyed from Grande Prairie, near Donvegan, Peace River, to Lesser Slave Lake, to prevent their starving to death. Some of them died after arriving there.

Within the personal knowledge of the undersigned many other Indians, Crees, Beavers and Chipewyans, at almost all points were there are missions or trading posts, would certainly have starved to death, but for the help furnished by the traders and missionaries at those places, furnished very often at great personal inconvenience.

8. Owing to the above facts recorded, and previous mortality, a great number of widows and orphans are left without natural providers.

9. Owing to a strong competition in the fur trade, and other causes, the Indians cannot look to the Hudson Bay Company for help as they used to do.

In the face of the above facts and with the prospect, at no very distant date, of this country forming a valuable and important portion of the Dominion; and as

we understand that parliament has already taken action by granting a Committee of Enquiry on this country and its resources, we would respectfully press on the government the urgent necessity of rendering speedy help to the survivors.

[Signed.] RICHARD YOUNG, Bishop of Athabasca, his clergy and a number of laymen.

Good Crops in Assiniboia. REGINA 26.—School inspector Grover has returned from an inspecting tour extending a hundred and fifty miles north and east. Everywhere farmers were satisfied with the season's crop, abundant evidence of the excellence of which were visible.

SEVERAL BY-LAWS PASSED. The Town Council Gets Through a lot of Important Work.

An adjourned meeting of the Town Council was held at the town hall Friday night. Present: Councillors Collins, McCallum, Linton, Allan and Orr. Councillor Collins was appointed chairman.

The solicitor informed the council that the solicitors for the Imperial Bank had accepted the legality of the \$12,000 debentures and that the money would now be available at once.

Two largely signed petitions were received from ratepayers asking the council to take some steps in the interest of property owners, in the matter of the matter of the C.P.R. closing up so many of streets crossing their line. The solicitor was instructed to write Mr. White on the subject.

In reply to an inquiry about sidewalks going on, the Clerk said that the contract, which had been forwarded to Lieut. Cochran for signature, had not come back yet, but Mr. Cochran was expected here in a day or two, when the agreement would probably be concluded and the work of laying the sidewalks go on at once.

Bylaw No. 86, which authorizes the exemption of W. H. Cushing from taxation on his planing mill and saw and door factory for the current year was introduced. Bylaw No. 87 was next taken up fixing the rate of assessment for the year 1888, as was also Bylaw 88, which authorizes the imposition of a poll tax of two dollars each on all male residents of the town who are over the age of twenty-one years, who are not assessed in a sufficient sum to make their taxation amount to \$200.

Bylaw No. 89, authorizing the Mayor and Clerk of the municipality of Calgary to sign a preliminary agreement with the Calgary Gas and Waterworks Company for the construction and running of a waterworks system in Calgary was also taken up. These four bylaws having been put through their several readings in council, the Council went into committee of the whole with Councillor Allan in the chair. The proposed agreement with the Waterworks Company was read and thoroughly discussed. Mr. Lucas, president of the Waterworks Company was called on to explain certain points and several amendments were made in matters of detail, after which the draft of the contract was unanimously agreed to by the committee. The committee then rose and reported in favor of the whole "four by-laws. The council then resumed its sitting when the bylaws were finally passed and ordered to be signed by the chairman and clerk of the council. The council then adjourned.

NEW BUILDINGS. The Bank of Montreal to Build Next Spring. The Court House Plans.

The Bank of Montreal will begin the construction of its new building in the spring. The plans have been prepared and everything will be got ready to proceed with the work as soon as our short winter is over. It will be built on the bank's lots on Stephen Avenue opposite the new hotel.

The plans for the new courthouse have been received. It will be a massive structure of Calgary stone two stories high. According to the specifications the walls will be laid up in best random coursed work with rock face and dressed work to all soffits, sills, etc. A massive arcade of three arches is the salient feature of the front elevation.

The work on the Grand Hotel is being somewhat delayed by the scarcity of hands. It has, however, reached a stage when a good idea can be formed of the handsome substantial nature of the building. It will be the handsomest hotel this side of Lake Superior.

Work on the new barracks is proceeding rapidly, the roofing being now on. Mr. Louche's stone business block on Stephen Avenue is being pushed forward rapidly.

The Right Sort of a Judge.

Mr. Walter H. Long, M. P., who was one of the judges of horses at the Calgary Fair, is one of the most noted of English horsemen. Vanity Fair, last September published a portrait of Mr. Long in the dress of the Beaufrat Hunt. The letter press referred to the subject of the picture as the representative of a long line of Wiltshire Longs who have been sportsmen for generations. He is one of the best riders in England and also one of the best judges of horseflesh. He still owns his pack of harriers, is one of the best whips in London and keeps his drag.

THE WEEK'S LOCAL NEWS

Wednesday.

The last searching party sent out by Mr. Prior, of the Eau Claire mills, to look for the bodies not yet found, out of the six men who were drowned at Kananaskis falls, Bow River, in June, have returned without being able to get any further trace of the lost men.

Six Indian children from the High River Industrial School are among the most interesting visitors at the exhibition. They are in charge of Mr. P. Aue, farm instructor and evince keen appreciation of the exhibits in all the classes. The industrial school exhibits vegetables, including Indian corn. The exhibit has secured six prizes, three first and three second.

A slight spill took place at the entrance to the show grounds yesterday, as Mr. J. S. Douglas and Mr. Alf. Carey were driving in with a load of good things for their diving booth. Their vehicle parted mid ships, the two occupants and the supplies were suddenly deposited on the ground. There was not much harm done, and an hour sufficed to put the matter right again.

Thursday.

The first and second teams of the Calgary Baseball Club left this morning for Medicine Hat, to participate in the tournament opening there today.

For the accommodation of persons wishing to attend the sale of sheep at Cochrane today, the C.P.R. attached a passenger car to the morning freight train and a large number of gentlemen left to attend the sale.

Sir Fred Middleton, Lady Middleton, Geo. Kirkpatrick, M. P. and Mrs. Kirkpatrick, left in the car "Matapedia" by No. 1 express this morning. Mr. Long and Senator Cochrane drove out to Cochrane last night, where Mr. Kirkpatrick's car was to be left off. The two parties will pay a visit today to the Senator's sheep ranch and the Bow River Horse Ranch this morning. Their car will be attached to the freight train which left here at 10:30 this morning, and the party will proceed to Banff.

Friday.

A rifle match took place here between Messrs. R. Heap and J. McDonald, of Winnipeg, yesterday for \$25 a side. Ten shots each at 200 yards were fired. The score was Heap, 42, McDonald 40.—A match also took place between O. H. Allen and George Dick for \$10 a side. The score in this match was Allen 38, Dick 35.

On account of the Harvest Home dinner taking place at 7:30 Wednesday, the meeting of the Town Council took place at 11 o'clock, a. m. The only business of importance transacted was in connection with the \$12,000 town debentures. It appears that the council concluded that too much time would be lost if they waited till the tender of Mr. Wilson Smith, of Montreal could be acted on. The resolution awarding him the debentures was therefore rescinded and one passed accepting the offer of the Imperial Bank of 100 net for the debentures.

Saturday.

Allderman McConnell, of Vancouver, B.

C., who is on his way back to the coast is in town today. Mr. McConnell occupied a prominent position on General Middleton's transport staff during the rebellion.

Mr. Deason, who has acted as agent for the sale of the Anthracite coal since the death of Mr. S. J. Hogg, states that there are about 400 tons of sized and screened coal out and ready for shipment at Anthracite, as soon as freight arrangements are made with the C. P. R. for shipping it.

The Private car "Chapleau" of the C. P. R. is sidetracked here today. Amongst its occupants are Mr. Shaughnessy, Assistant General Manager of the C.P.R., Mr. Chas. Cassils and Col. Whitehead, of Montreal. The car leaves by the afternoon special for Banff.

John Chinaman of the washee type is not generally regarded as being a very acute specimen of the human family by his white brother, but they understand the labor combine business all right. Having got tired of washing so cheaply, they have entered into a combination, putting up the price of their work to old figures to take effect on the 1st of October.

His Lordship Mr. Justice Rouleau, gave judgement in the case of Mrs. Cuznar against the town, this morning, dismissing the defendants motion for a non-suit with costs, and directing a verdict to be entered for the plaintiff for the amount of damages assessed by the jury at the trial, viz: \$2,500.

A Frenchman, claiming the somewhat English sounding name of "Cantwell," was charged before George Murdoch, J. C., last night with being drunk and disorderly. The person claimed that he was only trying to put a drunken man in bed. The evidence of any malicious intention on the part of the prisoner not being very clear, the magistrate said, "I can't well fine him," so he went free.

A report having got into circulation that the Galt company were going to put up the price of coal to \$10, a **HERALD** reporter waited on Mr. W. T. Ramsay, agent of that company, who authorized him to say that there is no foundation at all for the report and not only so but they are making extra preparation to supply our citizens next winter. The company have now in store at Calgary 1,500 tons, and by the end of October will have their stock increased to 2,000 tons.

Monday

Amongst the exhibitions on the fair grounds last week was a pump shown by Mr. H. Bloomfield, sanitary engineer, of Calgary. This pump is the same as shown by the cut in connection with his advertisement in the Daily **HERALD**. The whole thing is exceedingly simple, and the ease with which it can be worked was demonstrated by the fact that hundreds of people, many of them children, pumped and drank water from it during the show. In fact it was a great convenience, being the only place on the grounds where a drink of good water could be had outside of the restaurant. The pipe was only driven about twenty feet in the ground, giving an apparently unlimited supply of water.

Tuesday.

Mayor Shelton has returned from Medicine Hat, where he had been acting as a judge at the Agricultural Exhibition.

Mr. John Henry, manager of the Royal City Planing Mills, Westminster, B. C., accompanied by Mrs. Henry is in town today.

The Agricultural Society has decided to present Mr. Gaetz, who made such a splendid display of agricultural products at the late fair, with an illuminated diploma and address as a mark of appreciation of the efforts made by him to further the farming interests of this district. The souvenir will cost about \$30.

A slight fracas took place on Saturday evening about 9 o'clock at the Chinese laundry, corner of Stephen Avenue and Drinkwater street. A white customer went to get his washing and taking only enough money to pay the old rates, the Chinamen would not let the washing go unless the new tariff was complied with. One of the Chinamen locked the door to keep the customer in till the money was paid. Not believing in such work, he kicked his way out through the door. It is said one of the Chinese got his measure on the ground in the fuss.

A private letter received from Major Walker states that the Calgary exhibit arrived at Hamilton too late to be shown for competition, but the exhibition officials, in view of the great attraction that it was, have promised a diploma. Everybody was surprised and delighted, and in order to reach more of the people, the C. P. R. officials have taken charge of it and it will be divided and sent to some other fairs and after that it will be placed in the C. P. R. car and exhibited around the country this winter.

More stealing has been going on in town. Messrs. Graham Bros., who are building a house for Mr. Markley of Toronto, near Mr. George Leeson's house, were in the habit of leaving their tools on the premises. On Sunday night some one

entered the house and carried off a lot of articles. They miss so far, 1 spirit level, 1 carpenter's apron, 1 try plane, 1 tape line, 1 hammer, 1 hand saw, 1 panel saw, 2 chisels and 1 pair matching planes. The police are on the lookout but have not found any trace of the goods yet. Mr. McLean of Dewdney street also had a valuable harness and some other things stolen on Sunday night.

Three distinguished divines of the Methodist Church arrived in Calgary by this morning's express train. One of them is the venerable George Young, D. D., who is superannuated at Brantford, Ont., also the Rev. A. Sutherland, D. D., general secretary of Methodist missions for Canada, of Toronto, and the Rev. John McDougall, chairman of the Calgary district conference. Mrs. Sutherland and Miss Yeomans of Morley are in the party. Dr. Sutherland, Mrs. Sutherland and Mr. McDougall left for Edmonton this morning in connection with missionary work. It is expected that the Rev. Dr. Young will preach in the Methodist Church Calgary next Sunday evening.

None Better Than Calgary.

A Globe reporter has been interviewing Dr. Fraum, Agricultural Editor of the London Morning Post, on his return from the Northwest to Eastern Canada. The Doctor had this to say about Calgary:—"I believe Alberta is a perfect mine of agricultural wealth. No town in Canada seems to be more happily circumstanced than Calgary. It is beautifully situated on the Bow river and encircled by low hills and so rich is the surrounding territory in coal and timber that I was told fuel was cheaper in Calgary than anywhere else in the Dominion. The coal crops out on the river bank so that, in some cases, all the settler has to do is to take a pick and dig out enough for his own use. The export of live stock from Alberta to Great Britain is a trade which began only last year and has grown rapidly."

A big Stolen Goods Cache.

W. C. Twiddy is a young man who has been making his living by keeping offices etc., in order. He was supposed to be getting along very well, had built a neat little house on his own lot, and a couple of weeks ago was married. Latterly some of those who have had him working about their premises became suspicious that he was dishonest. Among the number was Mr. J. S. Douglas, who on Saturday obtained a search warrant and proceeded to Twiddy's house with the chief of police. They did not find the articles missed, but they discovered a respectable assortment of small articles stolen from Mr. Douglas' store or from his quarters in the fire hall. This is the inventory of articles found:—1 Bible, 1 photo of Douglas' and a couple of female photos, 3 books of Shakespeare's and other authors, 1 bracket tidy, 2 neck ties, 1 pair braces, 1 pipe case, 3 silver forks, 1 pair kid gloves, 2 silk handkerchiefs, 2 linen handkerchiefs, 1 sofa cushion, 1 quilt and 1 new kettle. There was also found on the premises of the prisoner a considerable quantity of tools such as planes, screw drivers, squares, saws, hammers, jack screw, spirit level, a box of rough on rats, etc., etc., which the prisoner admitted did not belong to him. Twiddy was promptly arrested and spent yesterday in the cool retirement of the corporation lockup. He was brought before Mr. Murdoch, J. P., this morning and committed for trial.

Progress in the far Northwest.

"Whatever may be the amount of loss from early frost in the great grain area along the Red River this season, there can be no doubt that further west the season has been an exceptionally favorable one. The exhibit of grain on the straw sent in from Calgary for exhibition at the Eastern fairs was remarkably fine. The Ladoga wheat in the collection could hardly be surpassed anywhere, and reports equally favorable have come in from points much more remote than Calgary. The grain from the Red Deer section in the collection referred to was very choice and early. From Edmonton it is learned that oats and barley were cut at Dunvegan on August 12, when the wheat was getting yellow. It is alleged on the authority of Mr. Anderson, of the Hudson's Bay service, that at Fort St. John, 180 miles northwest of Dunvegan, the climate is even more favorable than that at Dunvegan, still further out at Fort Laird, wheat has been successfully raised. One swallow does not make a summer, and the temporary success in grain growing achieved this season on the eastern slopes of the Rockies may be discounted by summer frost by and by. All farmers out there appear to agree that oats and barley may be relied on for a safe crop almost every season, and the success of this year's crop will be an inducement to fuller and it is to be hoped more systematic efforts at those and other new points. Taking the hint from the Farmer, the Calgary **HERALD** keeps reminding its readers that it is now time to move for something of the nature of a model farm somewhere along the foothills of the Rockies. Let the individual farmers do

their best, and let the gentlemen who now so liberally encourage fancy horse flesh try how a few extra dollars laid out on big prizes for grain, cheese and butter would pan out. For such a purpose they might manage to extract a few hundred dollars per annum from the Dominion treasury, and so demonstrate that value of their country and climate as to raise a boom in Alberta for mixed farming."—Northwest Farmer.

Distinguished Visitors.

Supt. R. Marpole and family, of the C. P. R., western division, arrived at Calgary by the 3:15 a. m. train Sunday, in Mr. Marpole's private car. In the party were also Mr. James Townley, private secretary to general superintendent Abbott, Miss and Mrs. Townley and Mr. Lewis, D. L. S., one of the oldest surveyors on the line. The party drove out several miles on the Macleod trail and expressed themselves as surprised at the wonderful advance made in farming since they last visited the district two years ago.

To Guard the Frontier.

Lieut.-Col. Herchmer, Assistant Commissioner of the N.W.M.P., leaves town tonight for Manitoba on important business. At the request of the Department of the Interior a detachment of sixteen men of the Mounted Police under command of an office, is to be stationed along the southern boundary of Manitoba to put a stop to the stealing of timber and evasion of customs duties thereon by American citizens. The department has received information that a large quantity of timber has been stolen from Southern Manitoba, particularly the Cypress Hills district, by Americans, and smuggled across the lines. The men for this particular service will probably be drawn from "B" Division. Col. Herchmer will select the stations and patrols.

Must be a Great City.

Dr. Bourinot, clerk of the House of Commons, has been interviewed at Winnipeg by the Call on his trip to the coast. In the course of his interview the learned doctor remarked:—"Of all the towns I have visited Calgary has the most picturesque site and the best facilities in many ways for the comfort and health of the community. On its hill-girt plateau, within sight of the noble mountains which lift their snowy peaks into the azure sky, it presents an exceedingly attractive appearance. The abundance of good building stone in the neighborhood affords advantages of which the enterprising citizens have not failed to avail themselves, and the result is a solidity of aspect which no town outside of Winnipeg presents. It has abundance of water and admirable drainage capabilities. As the entrepot for a mining, lumbering and ranching region, Calgary must in the course of time grow to a city of considerable importance."

Cariboo Test Works.

The Hakeville Columbian correspondent writes as follows concerning the test works being erected in Cariboo:—"The government test mill is making satisfactory progress in some respects, but the weather is so broken and rainy at this time of the year that it is doubtful if the bricks intended for the furnace can be got ready. There are two or three thousand dollars' worth now hanging in the balance, with the chances seemingly decidedly against their being a success, although all that can be done is being done to ensure the outcome; but a week or ten days of the benign countenance of Old Sol would be more effective than all the devices that can be used to dry the bricks ready for burning. The grading and cribbing of the site is about finished and the contract for the build-

ing is let to Johnny Knott for the sum of \$4,700; so that if all goes well the works will be in operation under the direction of Mr. E. A. Martin, government assayer, before winter.
